My passion

As an engineer, I am passionate about my work and I always strive to take advantage of any opportunity that comes my way.

My primary aim is to solve problems as quickly as possible and constantly improve my skills.

I never stop working on myself and seeking higher opportunities.

I was born on Sep.2000 and I have taken my final exemption from my military duty

Skills

Work Experience

Pest control engineer

Egypt future for sustainable development
Oct 2023- Dec 2023

Daltex Co
Jan 2024 - Feb 2024

As part of my previous role, I was responsible for ensuring that pest control operations were carried out effectively and safely, in line with our pre-established program. I made sure that every aspect of the process was calibrated correctly to achieve the desired outcome.

Financial analyst

2MCOOL Climate Solutions 2023

7 months as a Financial Analyst for small supplier company.
Experience in Tax and General Accounting.
Analyzed financial data, prepared statements and provided recommendations.
Gained expertise in financial analysis and accounting principles.

Laboratory technician

BIO LAB 2022-2023

Worked as a lab technician for 6 months, experienced in chemical analysis devices and lab practices including manual chemical handling.

Freelancer and Graphic designer

2020-2021

During the Covid-19 pandemic, I worked as a Graphic Designer for two years on various advertising and marketing projects. I have extensive experience working with SVG and EPS formats using Inkscape.
